NANO FIBER

Flexible. Durable. Adaptable.

The world's smallest Micro Armor Fiber™ Optic Cable can conquer any application.

The Nanofiber difference

For the first time in over 20 years, the industry has an innovative alternative to conventional Aluminum Interlock Armor (AIA) – TiniFiber®. This 65% smaller, 75% lighter fiber optic cable gets its superior durability, flexibility and adaptability from its patented Micro Armor stainless steel coil, which is designed to protect the glass strands and bend radius.

Cabling & Communication Solution

- Audio/Video Cable
- Communication Cable
- LED Lighting Cable
- Lutron Cable
- Fire & Alarm Cable

Dynacom™

Network Products

Providing Affordable Quality Since 1984

Our commitment to quality products and personal service has made us a leader in supplying copper and fiber optic structural cabling products that exceed performance demands while maintaining exceptional value. From our headquarters in Hayward, Ca. we supply a nation-wide network of over 100 distributors to serve your needs.
